

REMARKS

To comport with the Examiner's requirement about Election/Restriction, the Applicant elects the Group IV, i.e., R³, R⁴ and N form three-to-eight-membered heterocycle, and claim 1 is thus amended by deleting "methyl" from the scope of R³ and R⁴.

The Applicant also elects the species claimed in claims 11~17, wherein:

claim 11 claims the species 6b4c, 6c4c, 6f4c and 6g4c respectively described in Examples 1, 3, 5 and 6;

claim 12 claims the species 2f4c described in Example 2;

claim 13 claims the species 7g4c and 7g6c respectively described in Examples 8 and 10;

claim 14 claims the species 2g5c and 4g5c both described in Table 3;

claim 15 claims the species 5g4c, 5g5c and 5g6c all described in Table 3;

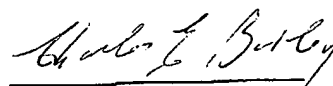

claim 16 claims the species 6g4c, 6g5c and 6g6c respectively described in Examples 6, 7 and Table 3;

claim 17 claims the species 6f5c described in Table 4.

Claim 1 is additionally amended by redefining R³-R⁴-N as pyrrolidinyl, morpholinyl or piperidyl. Pyrrolidinyl and morpholinyl are reinserted according to compounds 6b4c, 2f4c, 6c4c, 3f4c, 6f4c, 6g4c, 7g4c, 5g6c and 6g6c, which are the preferred embodiments described in the specification. The Applicant believes that such supplement is licit and acceptable without outraging "new matter".

The Applicant also believes that the foregoing is a complete response to the Office action, and thus respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

Charles E. Baxley
